# Qualcomm® QCS4490/ QCM4490 Processors

## Premium connectivity meets next-gen processing with the QCS4490 and QCM4490 Processors.

The QCS4490 and QCM4490 processors deliver key, advanced features now required by industrial handheld, industrial computing, and other IoT devices. They come loaded with Wi-Fi 6E for multi-gigabit speeds, extended range, and low latency with powerful, efficient processing to handle complex computing tasks. With planned support for Android releases through version 18, you can use this processor for industrial designs through 2030, helping save costs and development time. We've designed a mid-tier solution packed with a lot of purpose.

## Highlights

### Premium connectivity at mid-tier

- Supports multi-gigabit speeds, extended range, massive capacity, and ultra-low latency through Wi-Fi 6E
- Wi-Fi 6E harnesses the 6 GHz spectrum to extend advanced Wi-Fi 6 MU-MIMO and OFDMA into the new band to deliver superior performance, even in congested areas

### Next-gen system performance

- Built-in powerful, efficient processing for advanced IoT device computing tasks
- Multi-gen leap to Qualcomm® Kryo™ Octa-core CPU (up to 2x over previous generation in performance benchmarks)
- On-device processing allows for efficient data analysis between device and cloud (intelligent edge computing)

### Longevity and cost savings

- Save costs and development time with the Product Longevity Program
- Planned support for Android releases 13 through 18 allows you to design products up to 2030\*

\* Subject to change without notice.

### Expected Product Longevity: April 2030

The QCS4490/QCM4490 processors are a part of the Product Longevity Program for Qualcomm IoT Portfolio. These products are developed and engineered with product longevity and durability in mind, helping to bring stability to our customer product designs. Product longevity dates are subject to change without notice.

# QCS4490/QCM4490 Target Applications

- Industrial Handheld
- Retail POS Devices
- Control & Automation
- Industrial Computing Devices
- Industrial & Personal Security Panels

## Features

- Wi-Fi 6E that uses the 6 GHz spectrum to extend advanced Wi-Fi 6 MU-MIMO and OFDMA into the new band and deliver superior performance, even in congested areas
- Delivers speeds of up to 3.6 Gbps, supported by Qualcomm® 4K Quadrature Amplitude Modulation (QAM), 160 MHz channel support and unique 4-stream (2x2 + 2x2) Dual Band Simultaneous (DBS)
- 4th generation 5G NR Sub-6 modem with 3GPP Rel. 16-capable and true global carrier support
- Voice-over-NR (VoNR), 5G location (E-CID)
- Multi-gen leap to Kryo Octa-core CPU (up to 2x over previous generation in performance benchmarks)
- On-device processing allows for efficient data analysis between device and cloud (intelligent edge computing)
- Planned software support for Android releases 13 through 18 allows you to design products up to 2030<sup>1</sup>
- Save costs by investing in just one processor for multi-year industrial design, development, and maintenance support
- Significant reductions in latency and increased responsiveness for latency-sensitive applications (voice, video)
- Smooth handoffs and superior connectivity, even in large, complex environments with multiple high-demand devices such as hospitals and warehouses
- Audio AI accelerator enhances voice quality and voice UI accuracy
- Enhanced camera ISP hardware to support superior image quality

## Block Diagram

<sup>2</sup> Supported with a companion module

## Specifications

<b>Process Node</b>	4 nm
<b>CPU</b>	Kryo Octa-core CPU: 2x Gold A78 @ 2.4 GHz + 6x Silver A55 @ 2.0 GHz, 1 MB L3 cache
<b>GPU</b>	Adreno GPU 613
<b>Memory</b>	LPDDR4X/LPDDR5 SDRAM (2 x 16-bit) @ up to 3.2 GHz
<b>Modem</b>	5G R16 Sub-6 100 MHz (QCM4490 only)
<b>Camera</b>	Qualcomm® Spectra™ ISP
<b>Connectivity</b>	WLAN: Wi-Fi 6E (802.11b/g/n/ac/ax) 2x2 160 MHz, 4K QAM, 2x2 DBS (Qualcomm® WCN6856) Bluetooth® 5.2
<b>Display</b>	FHD+ (1080 x 2520) @ 90/120 Hz
<b>Video</b>	Video decodes: Up to 1080p60D for H.264/H.265/VP9 Video encodes: Up to 1080p60E for H.264/H.265
<b>Audio</b>	eNPU processor, Integrated SVA, 1 MB shared LPI with sensor
<b>Interfaces</b>	USB 3.1 type-C, eMMC v5.1, SD 3.0, UFS 3.1, PCIe
<b>Security Features</b>	Secure boot, Secure debug, HW encryption, Qualcomm® Trusted Execution Environment (TEE), pMEM, TME 1.0
<b>Location</b>	Gen 9 VT v5, GPS, BeiDou, GLONASS, Galileo, dual-frequency L1/L5, Navic
